ALBADOME 1977 HIGHLAND PARK

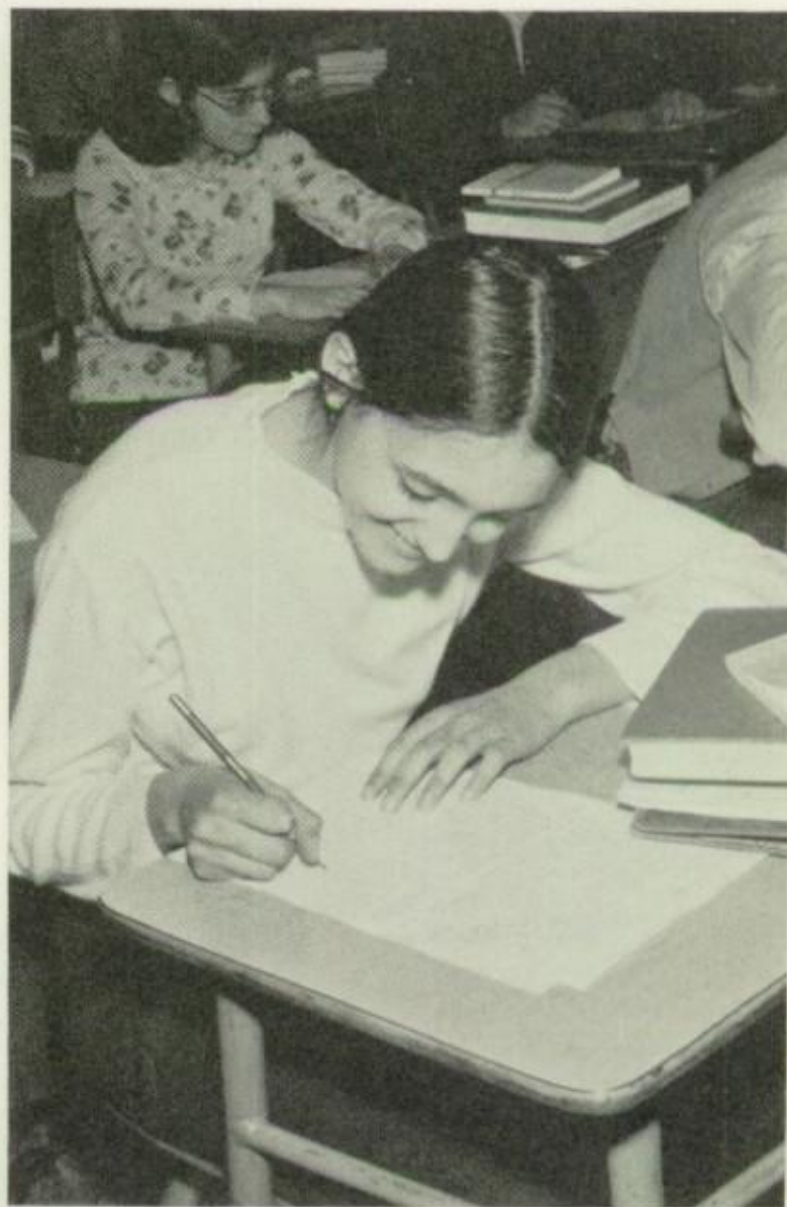

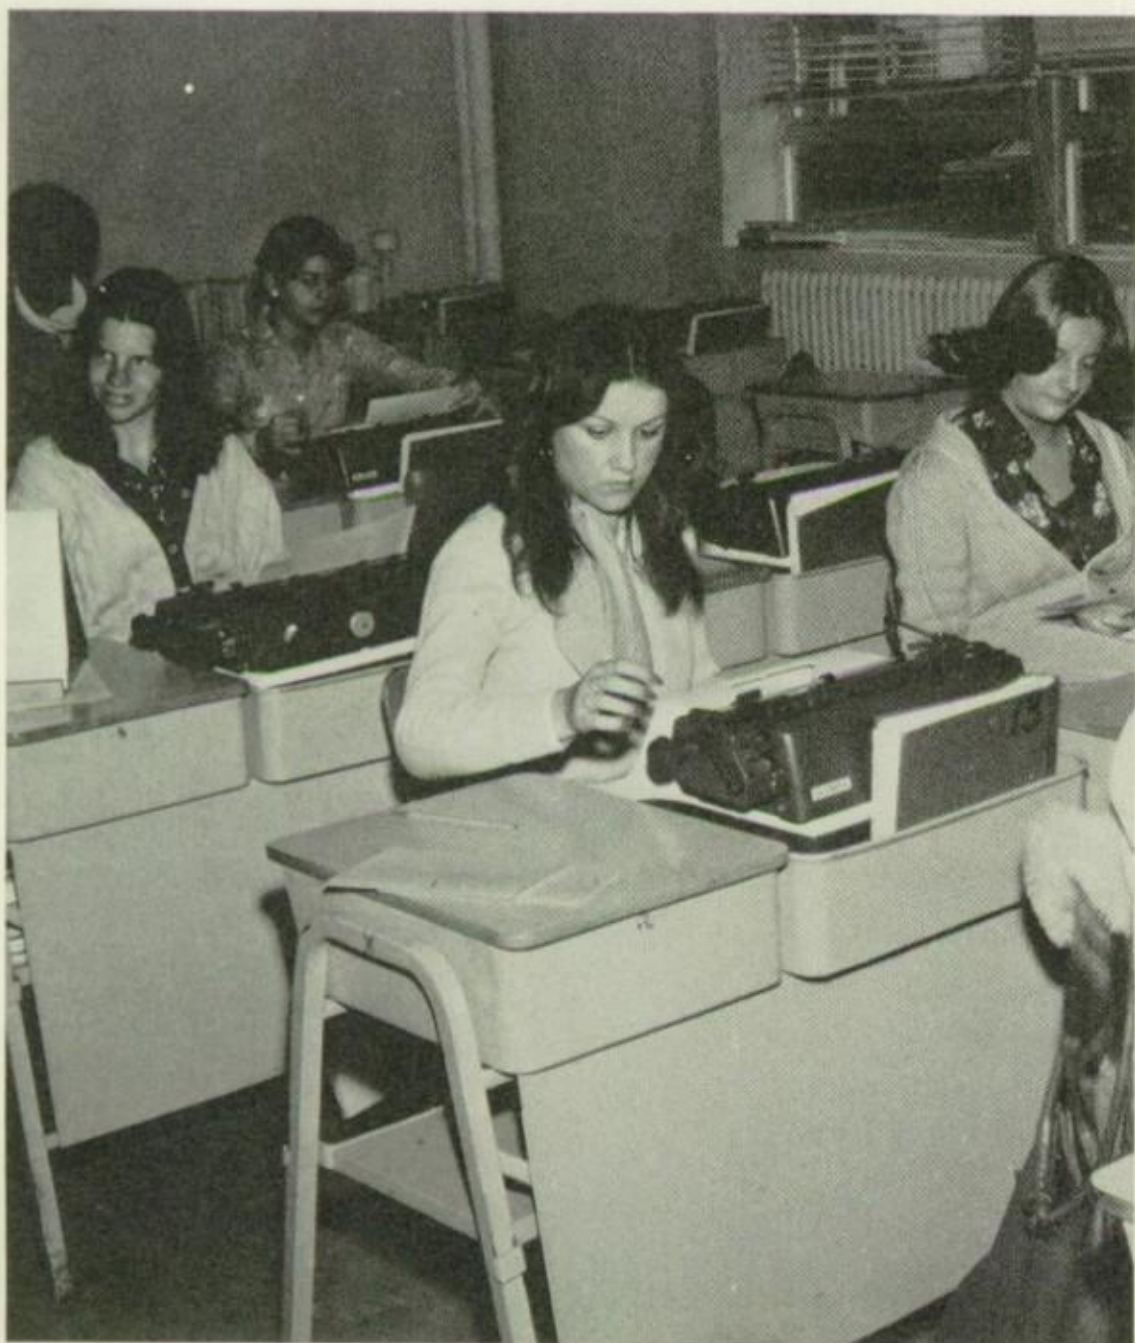

HIGH SCHOOL

HIGHLAND
PARK,
NEW
JERSEY

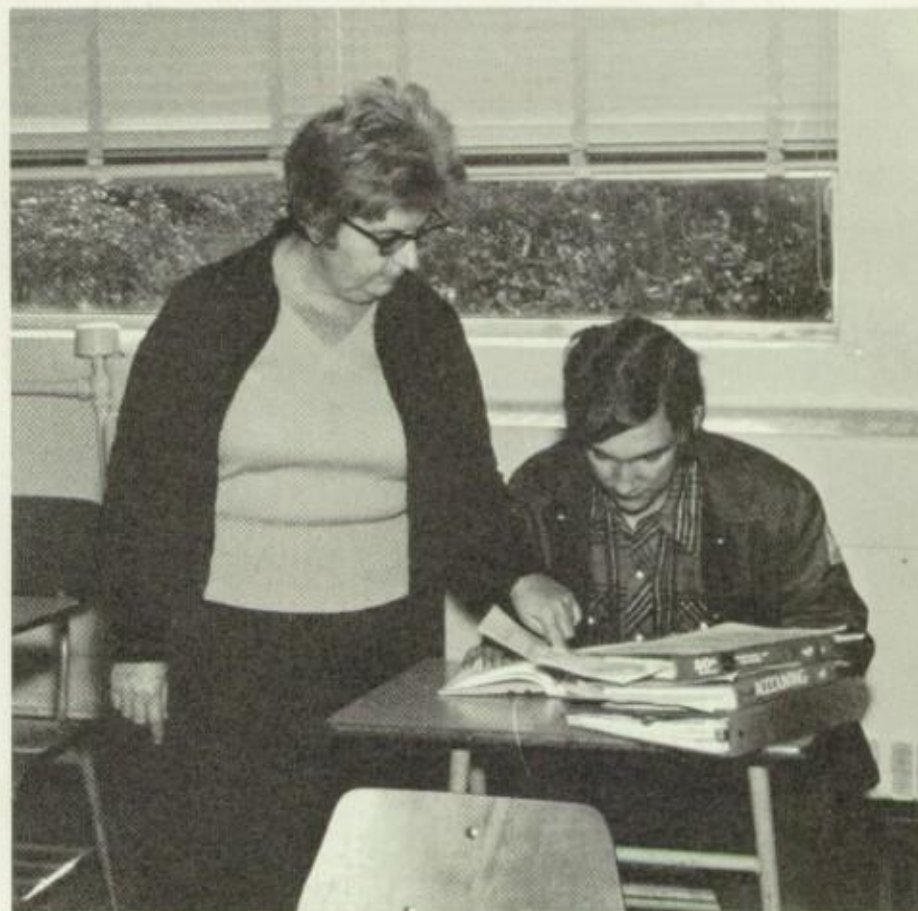

Starting as a crescent, the moon progresses towards its fullest stage, only to begin once more. Similarly, we grow from our experiences in high school in preparation for our new beginning as young adults.

LEARNING . . .

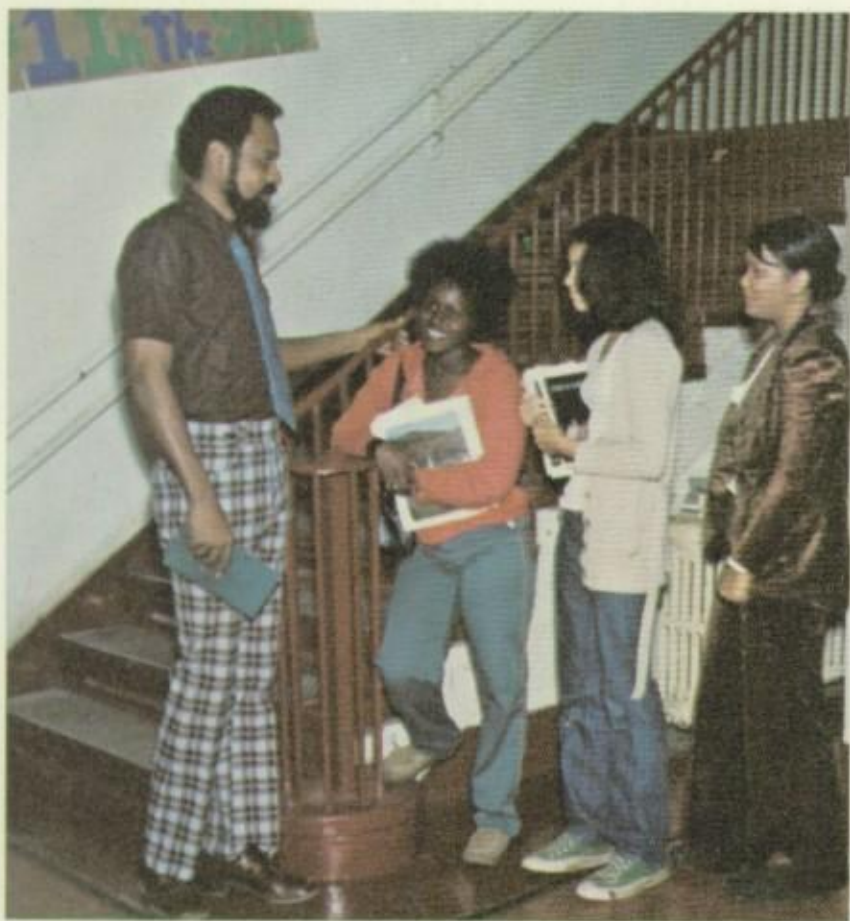

*Education is a social process . . .
Education is growth . . .
Education is not preparation for life;
Education is life itself.*

John Dewey

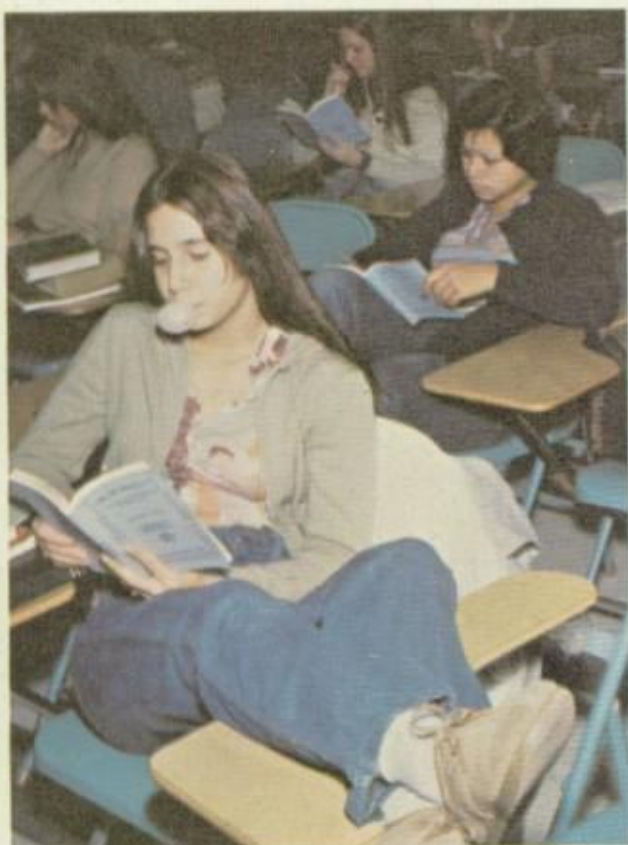

FROM EACH OTHER . . .

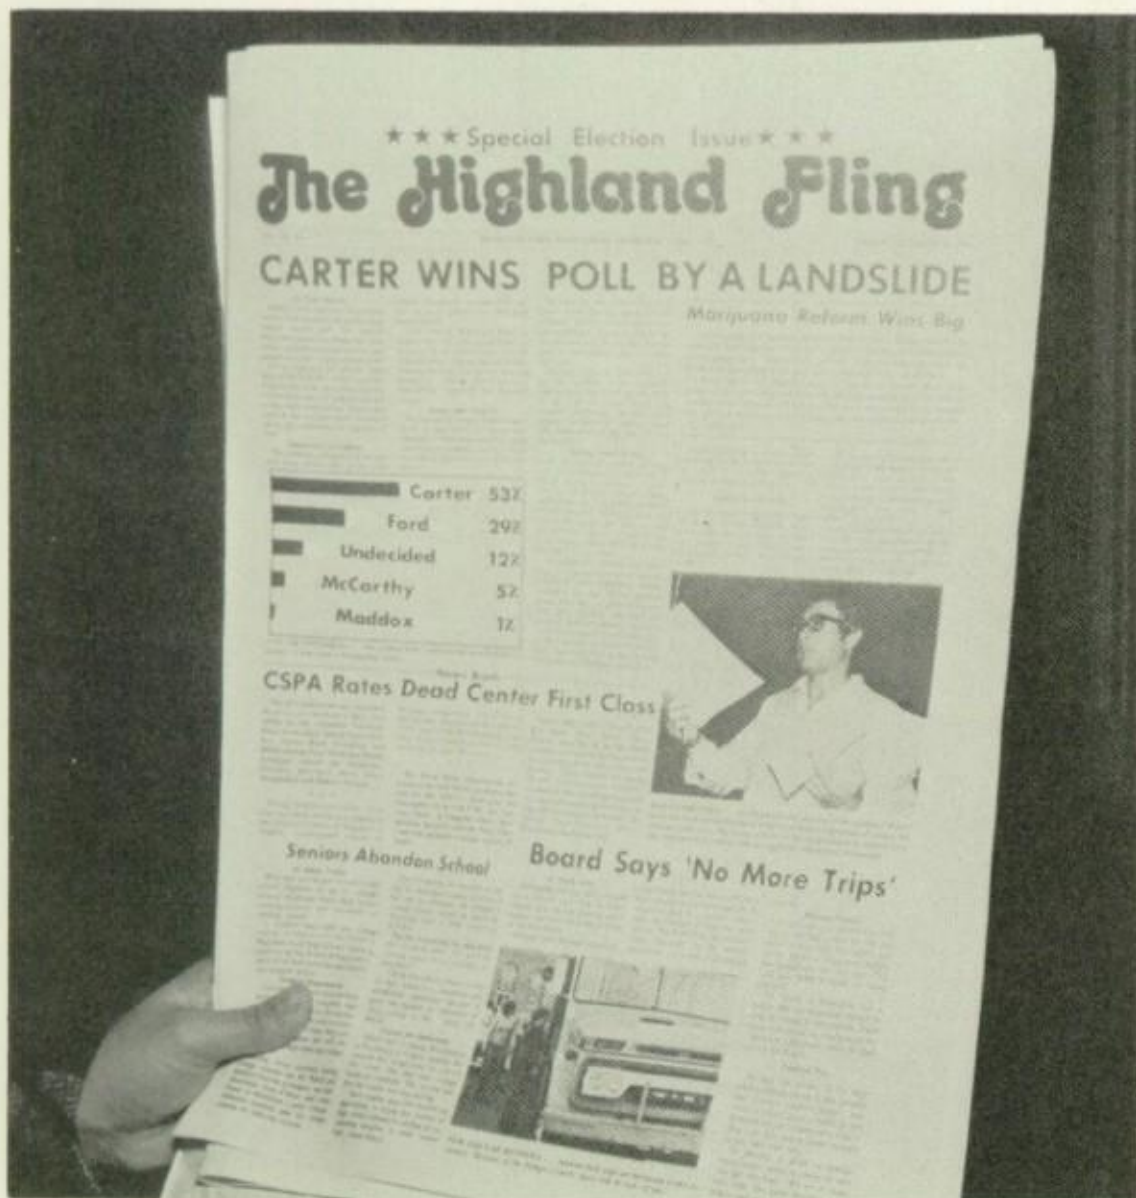

... to see people giving
... to believe in my fellow man
Yes, I want to believe."

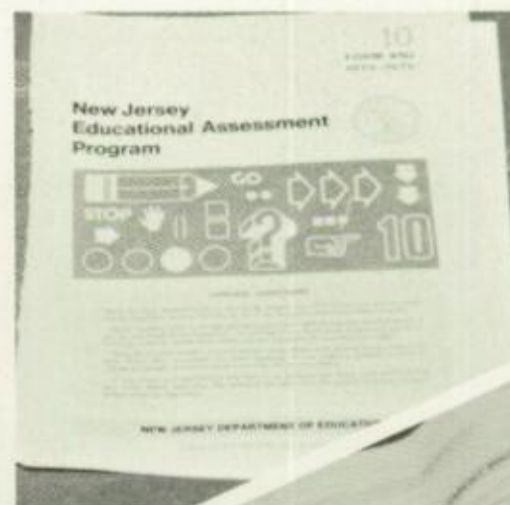

Carole King

AND THE WORLD AROUND US . . .

Who says H.P.H.S. is apathetic? Students sure showed up at the "polls" to voice their opinion about who should be our next president! Carter not only won the election, he won the *Fling's* poll too!

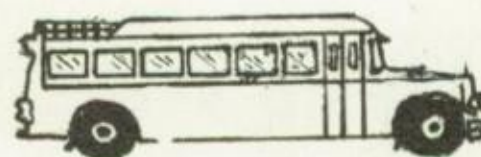

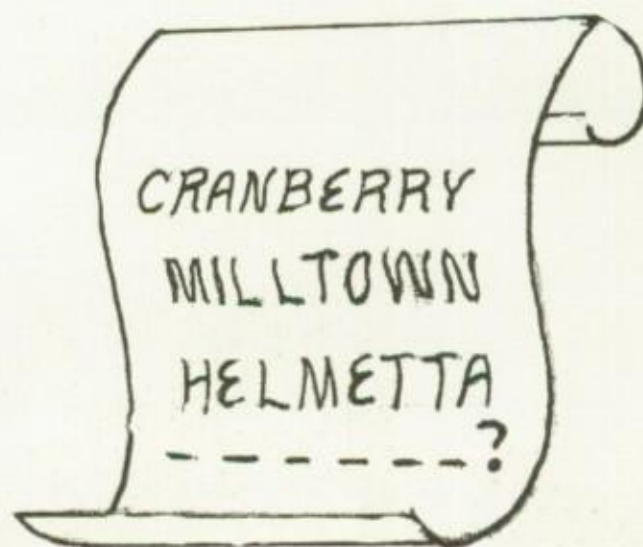

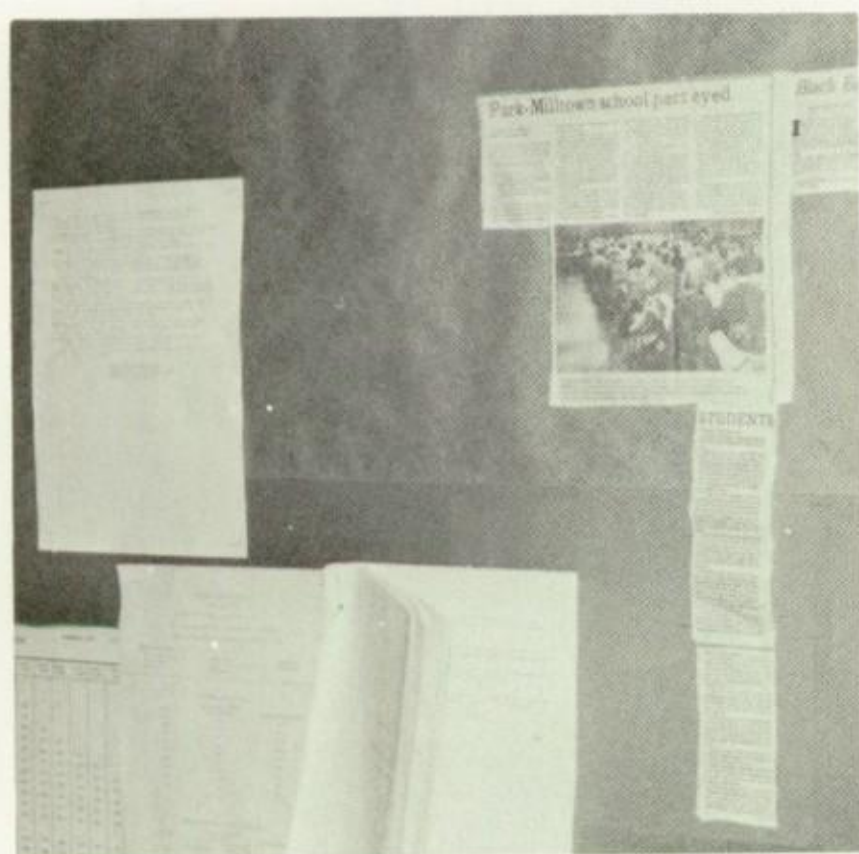

T & E

This year New Jersey started the "Thorough and Efficient" Education Program in order to improve our school systems. However, when we think of T & E, we will always remember hour long tests and intense assemblies.

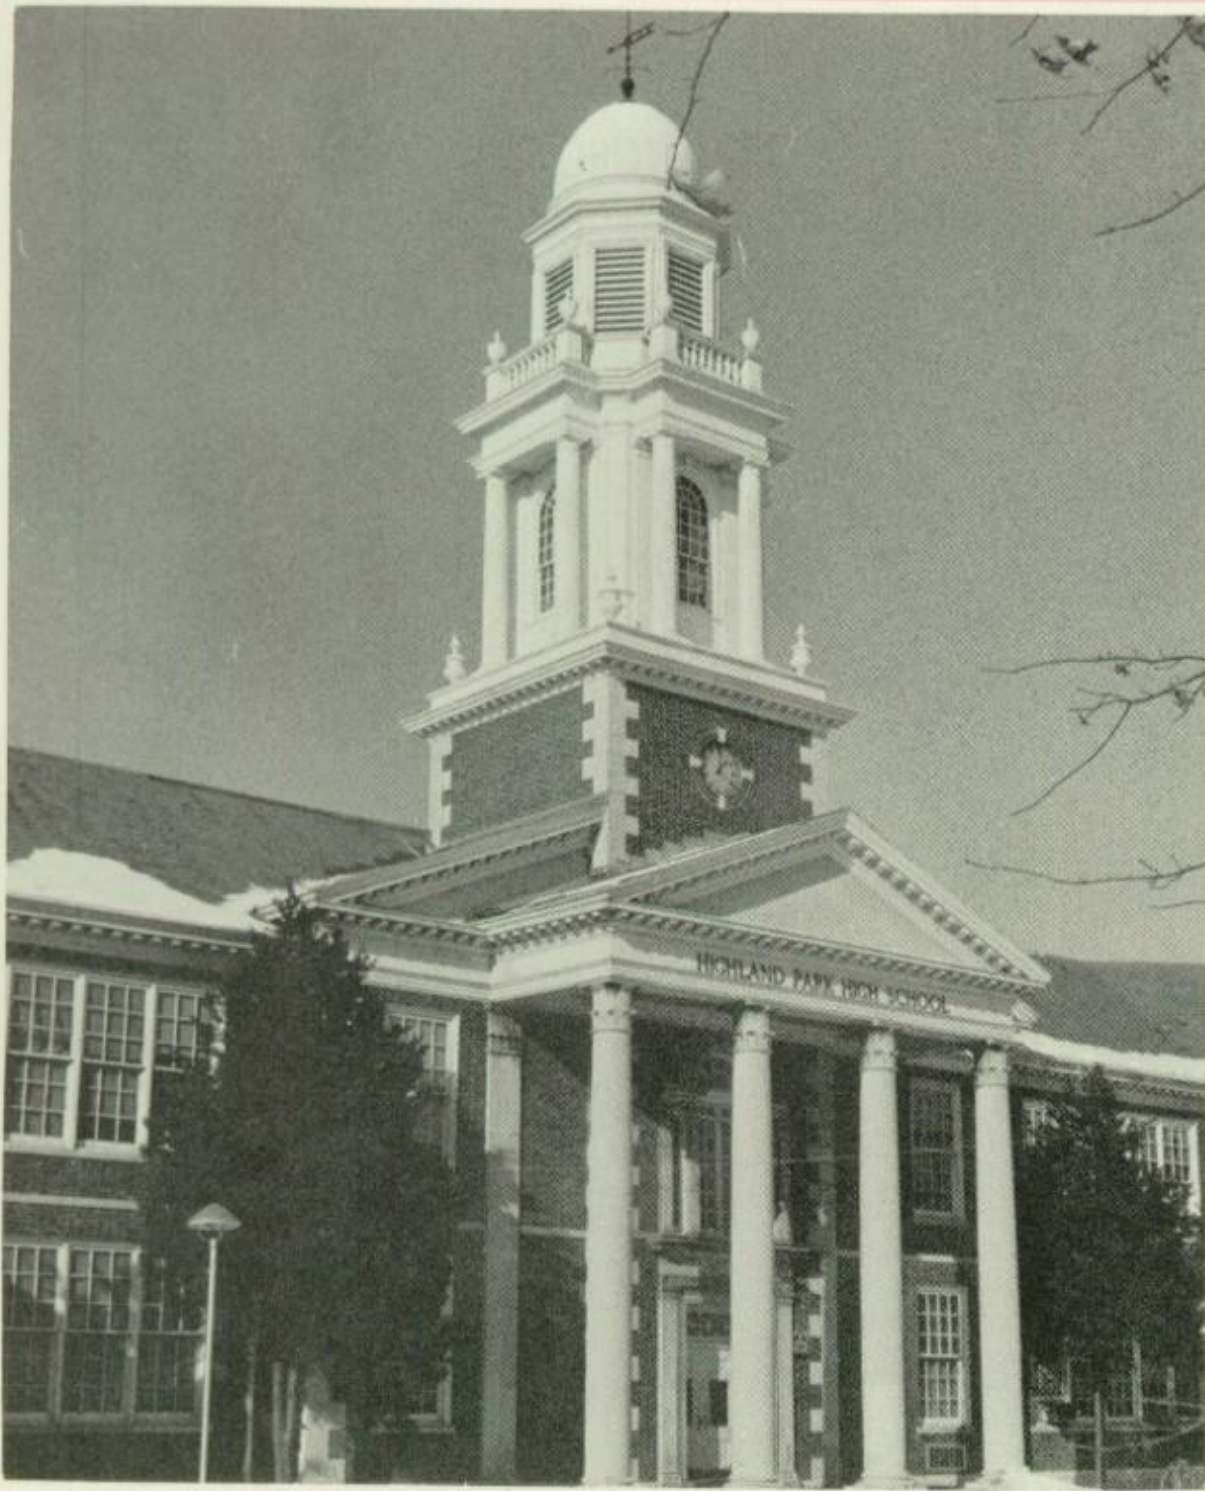

Winter '77 brought record breaking inches of snow and low temperatures. Even rugged Highland Park High closed down for a day.

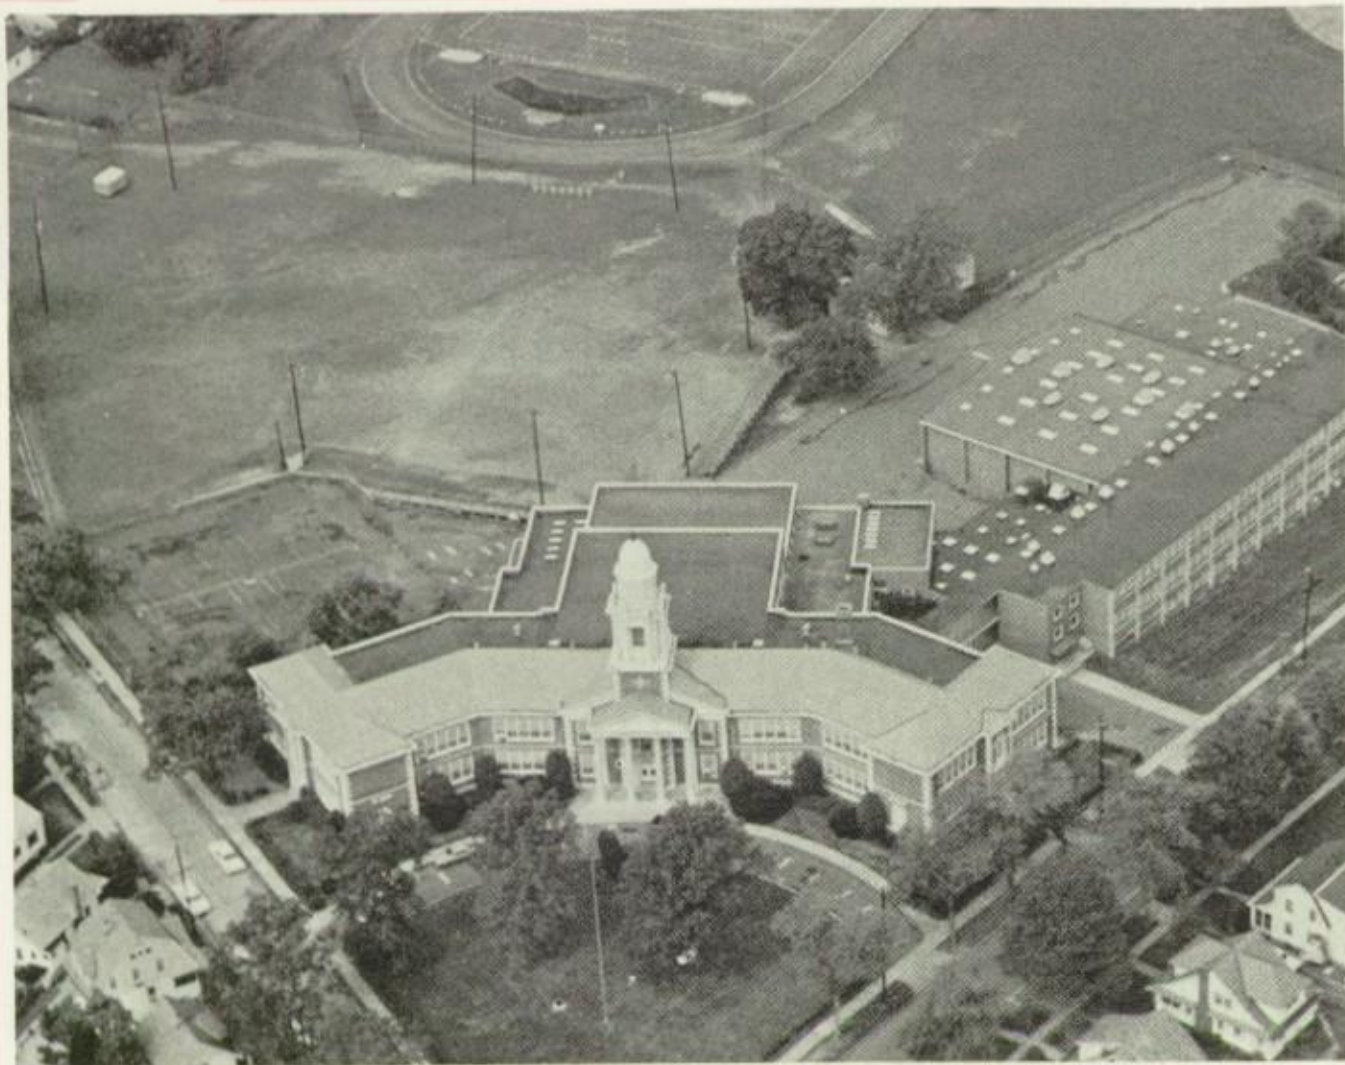

With the enrollment at H.P.H.S. decreasing, we must look elsewhere for students to keep up our well diversified program. Several student populations were considered; namely Cranberry, Helmetta, and especially Milltown.

AT HIGHLAND PARK HIGH SCHOOL

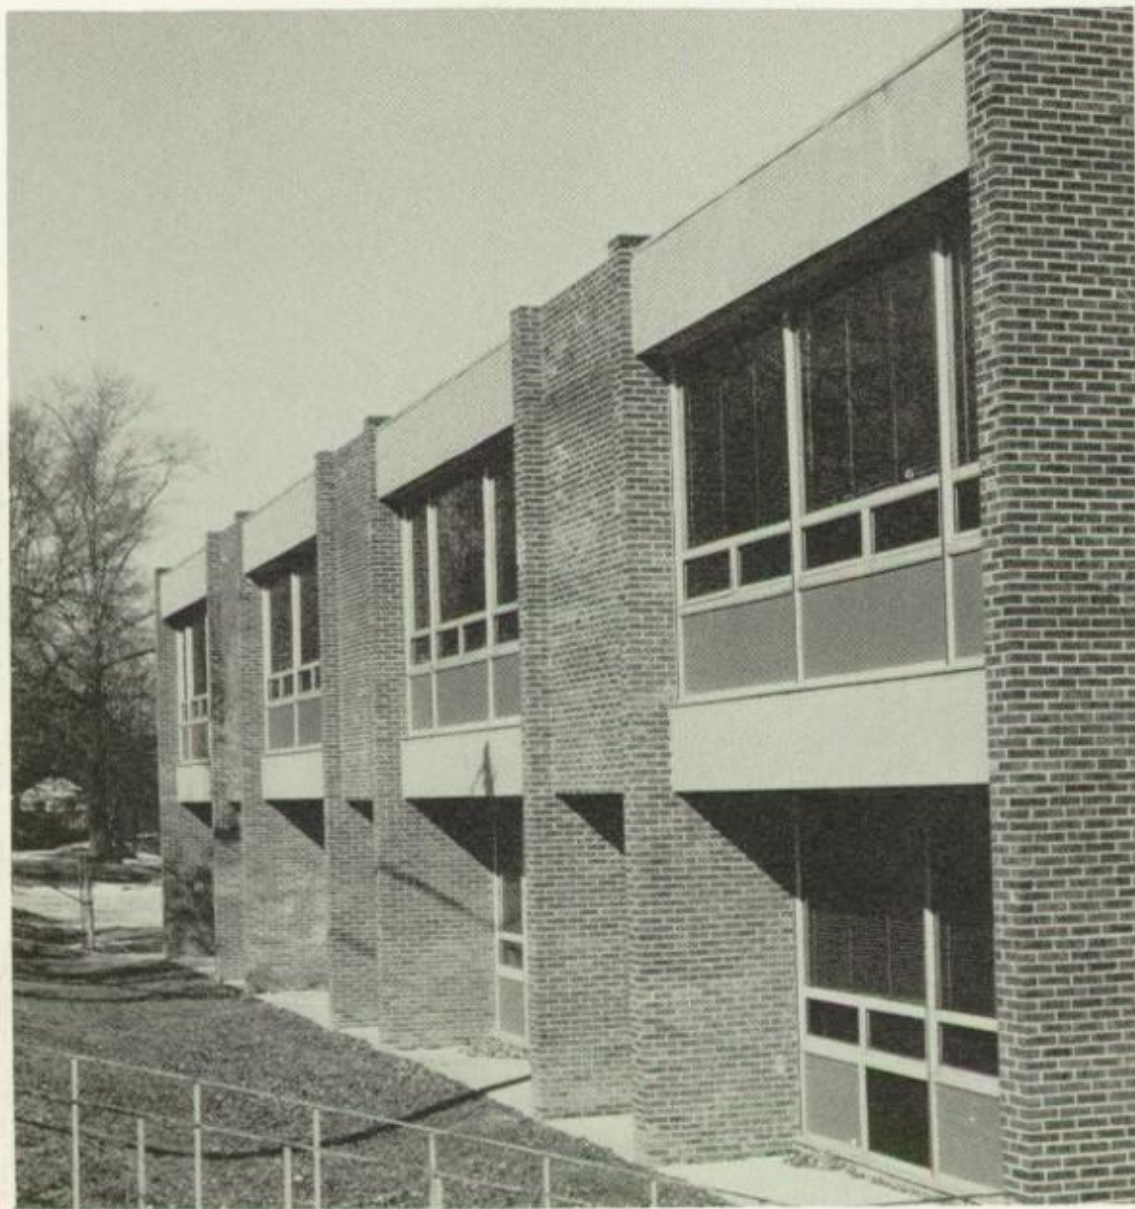

In 1925 Franklin Junior High School was built on the corner of Montgomery Street and North Fifth Avenue. It wasn't until 1937, twelve years later, that the school was established as Highland Park High School. The first graduating class of H.P.H.S. in 1938 consisted of one hundred thirty students. At this time the yearbook was named the *Albadome*. The first issue was paper-back and contained fifty six pages.

As Highland Park High School grew, its needs expanded. Therefore, in 1957 it was imperative that a new wing be added to the school. In the fall of 1959 the "science wing" was completed. Brand new facilities were made accessible to students and faculty including a new gymnasium, cafeteria, Guidance and Board of Education Offices, and science and home economics rooms. The science department was known as one of the best in New Jersey at the time. In 1960, one hundred sixty students graduated.

The English wing, built in 1965, completed the growth of our school as it stands now. First used in 1968, the students and faculty found many additional classrooms at their disposal. These included an almost "double" room containing a small platform stage now used in many classes such as Speech and Modern Drama. The upper level contained a large, new library! This year the school holds 756 pupils with a graduating class of 196: Quite a difference from 1938!

THE CLASS OF 1977 DEDICATES THE ALBADOME TO

MR. WARD SMITH

Throughout his 16 years of teaching chemistry at Highland Park High School, Mr. Smith has established a reputation of being a conscientious, enthusiastic, and highly effective teacher. His main concern is that his students be "the best" and in many cases they are. The H.P.H.S. Chemlete Teams have always done well under his guidance due to the fact that he knows his area very well and keeps himself well informed and up to date.

A basketball enthusiast, Mr. Smith enjoys following the Highland Park team by attending practices and games. He is also fond of various types of music and Chinese food.

Everyone would like to thank Mr. Smith for being an excellent and kind-hearted teacher. He has done a great deal for all of us and we wish him the best of luck in the future.

A SPECIAL THANK YOU TO— MRS. VALERIAN EDEN

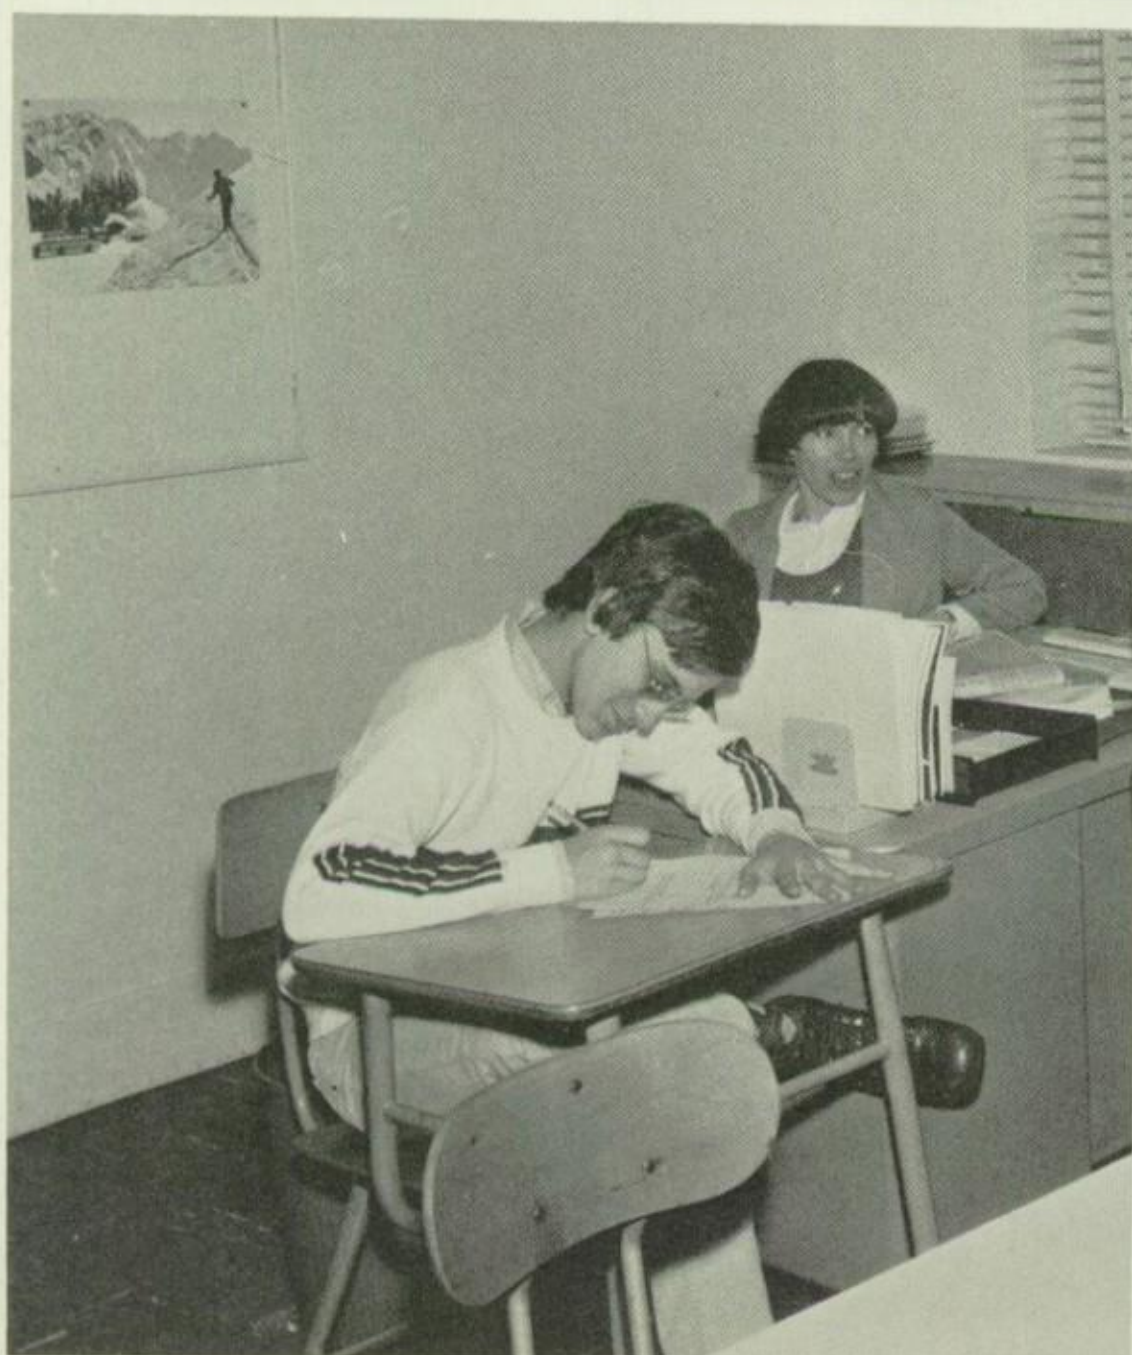

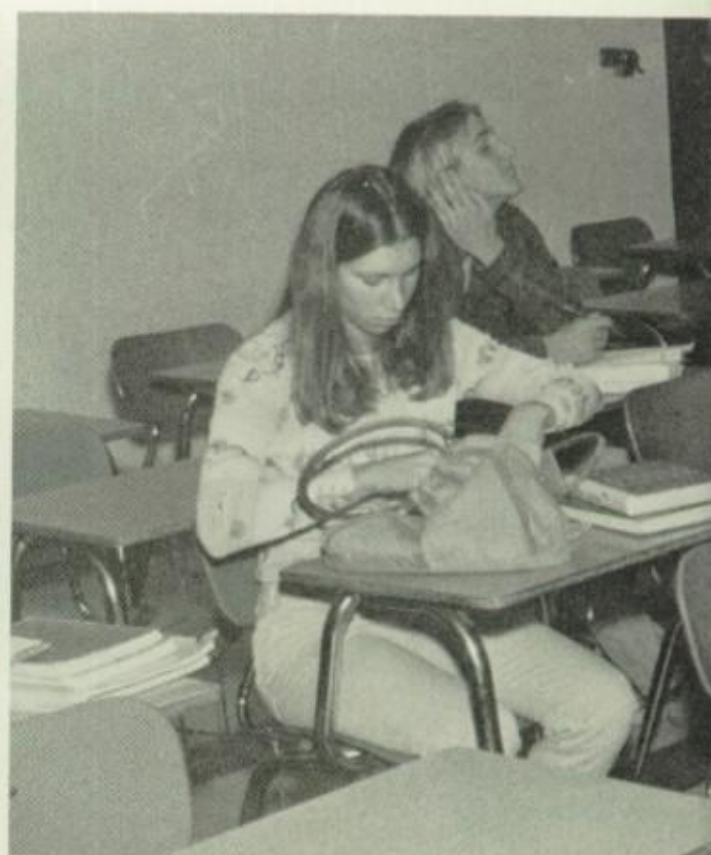

This year the students of H.P.H.S. are pleased to give a special thank-you to Mrs. Valerie Eden, who has been teaching math here for twenty years. A very friendly woman, Mrs. Eden was always ready to help students and faculty at any time. She never turned students away when they asked for help and was also known for doing things for the faculty when they asked.

Mrs. Eden has never limited herself to teaching math. The knitting, rug hooking, and bridge clubs have always been her departments, all activities which she enjoys in her spare time. Some of her other hobbies are fishing, swimming, and studying antiques. Upon retiring this year, Mrs. Eden will live in Florida during the winter and Maine during the summer, great places to pursue her interests.

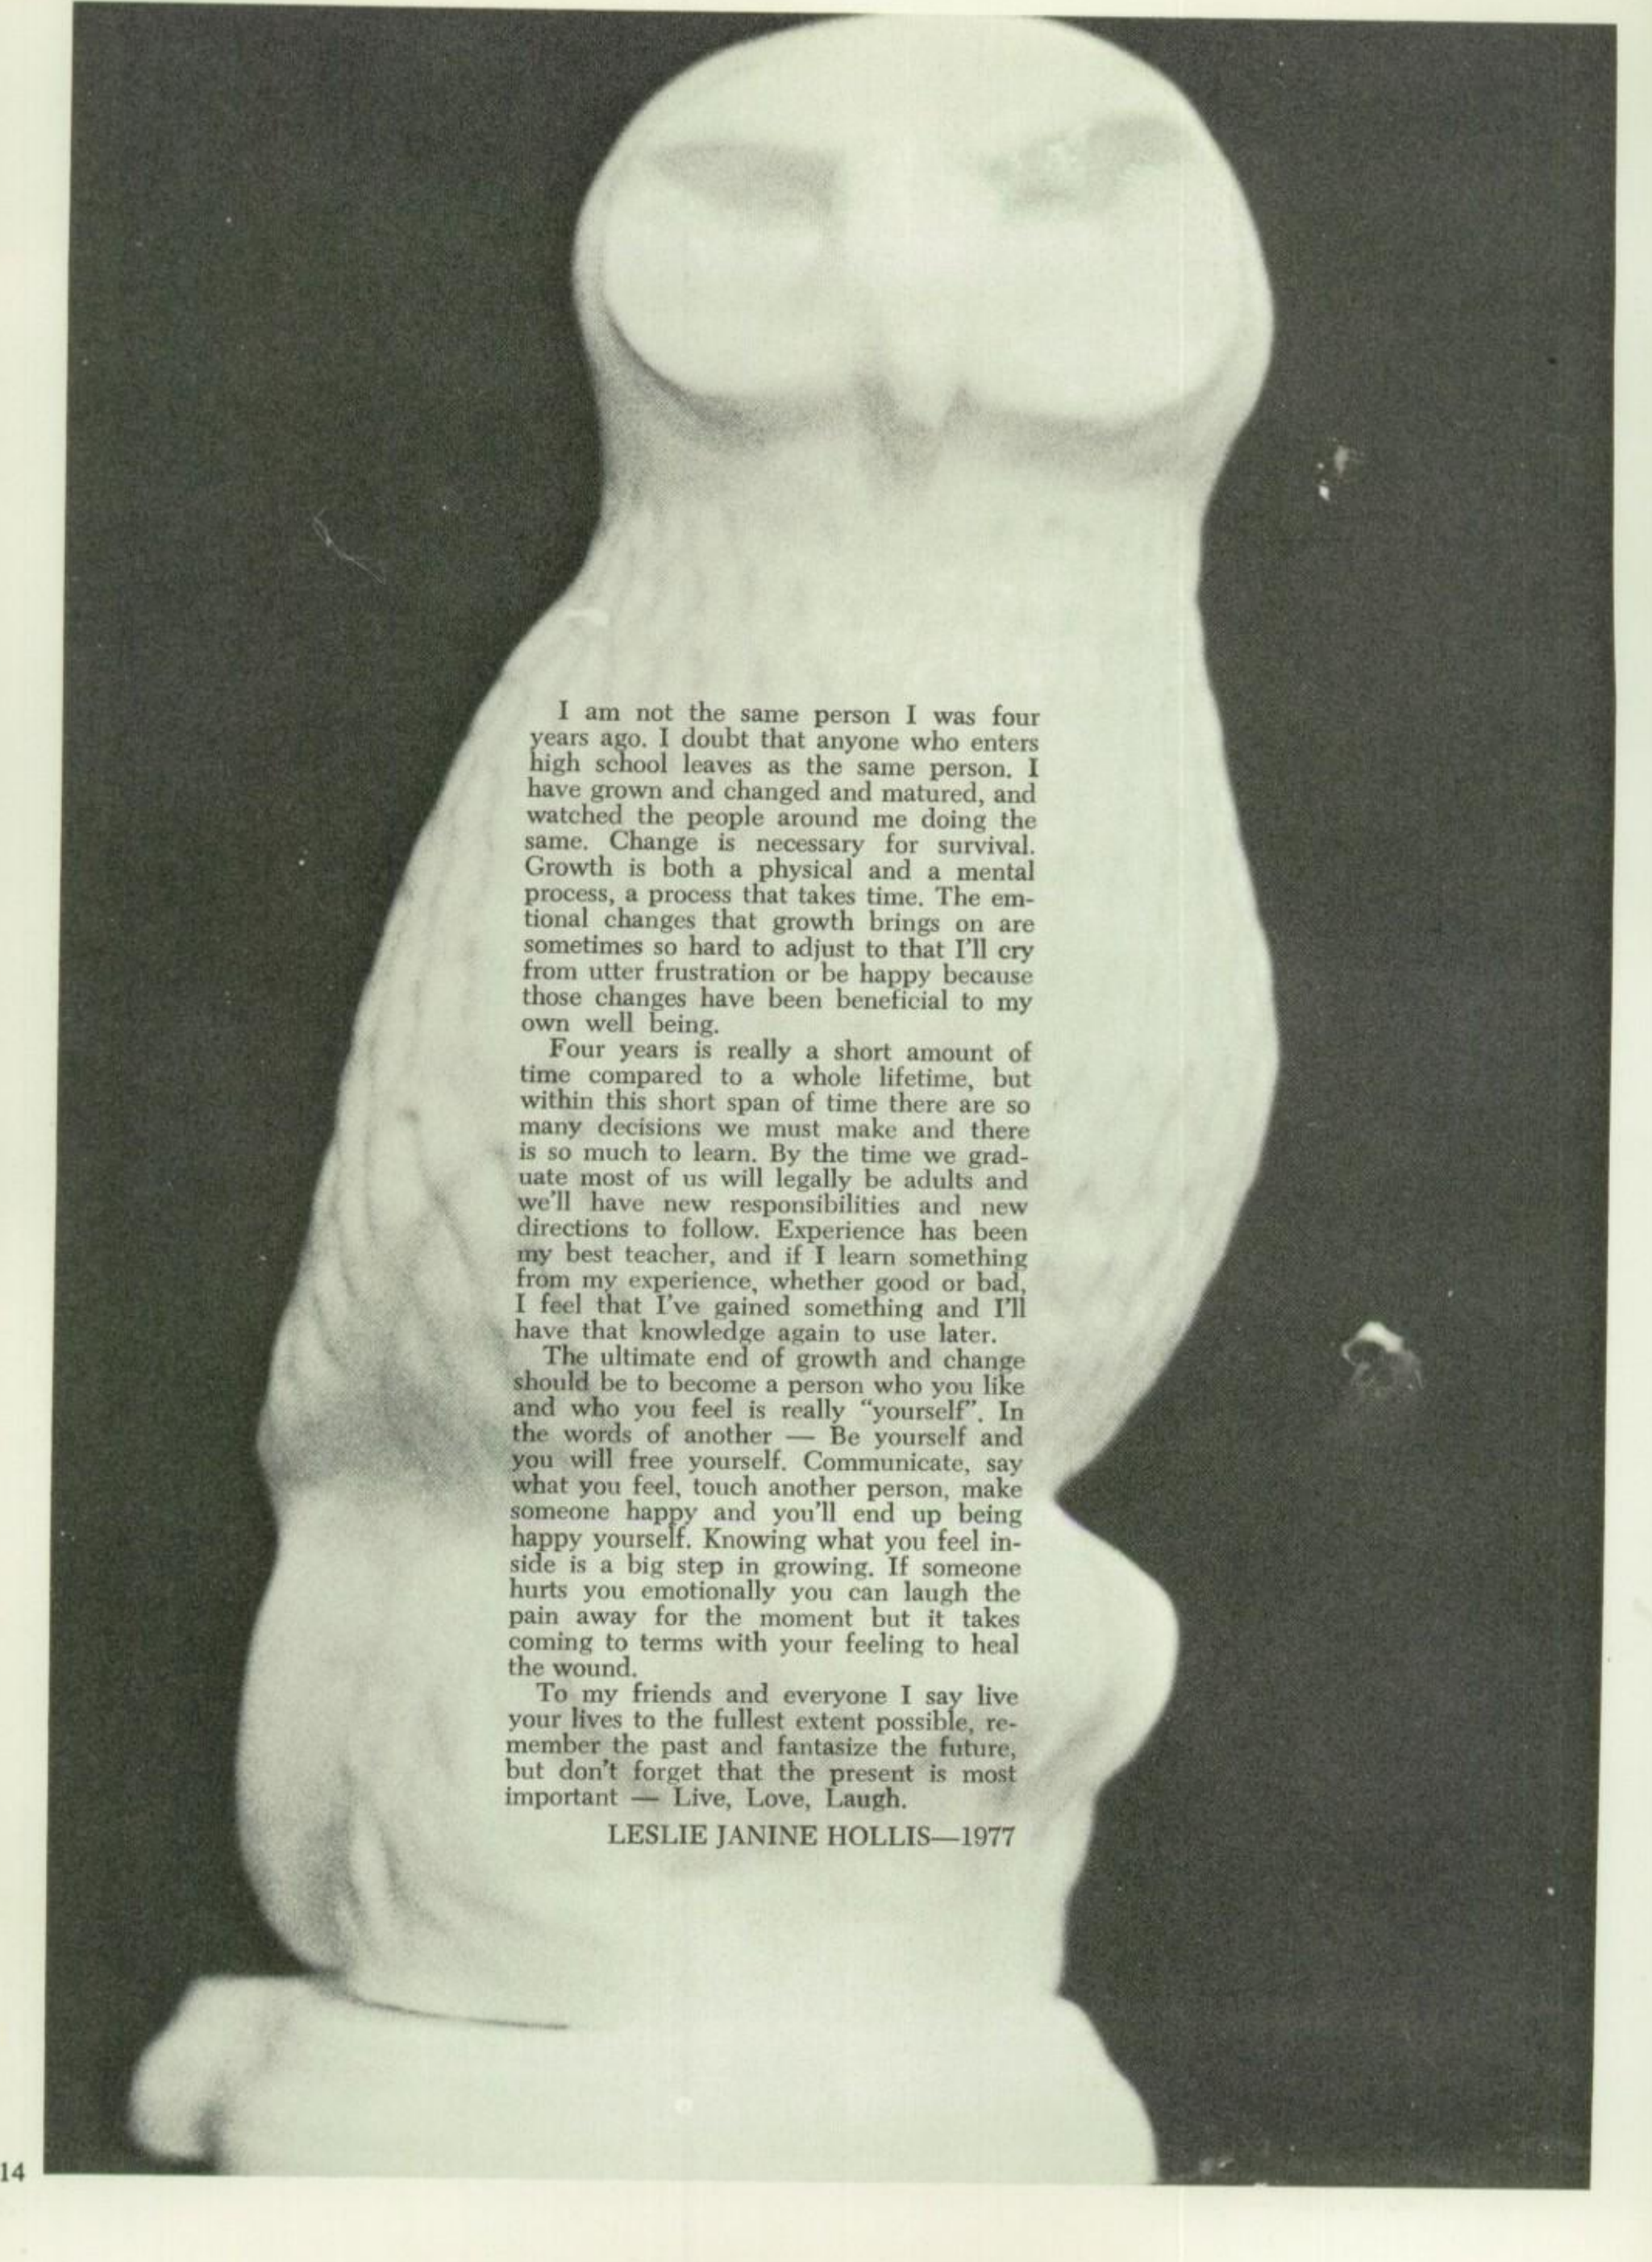

THE GRADUATES

"The only limit to our realization of tomorrow will be our doubts of today. Let us move forward with strong and active faith."

Franklin D. Roosevelt

I am not the same person I was four years ago. I doubt that anyone who enters high school leaves as the same person. I have grown and changed and matured, and watched the people around me doing the same. Change is necessary for survival. Growth is both a physical and a mental process, a process that takes time. The emotional changes that growth brings on are sometimes so hard to adjust to that I'll cry from utter frustration or be happy because those changes have been beneficial to my own well being.

Four years is really a short amount of time compared to a whole lifetime, but within this short span of time there are so many decisions we must make and there is so much to learn. By the time we graduate most of us will legally be adults and we'll have new responsibilities and new directions to follow. Experience has been my best teacher, and if I learn something from my experience, whether good or bad, I feel that I've gained something and I'll have that knowledge again to use later.

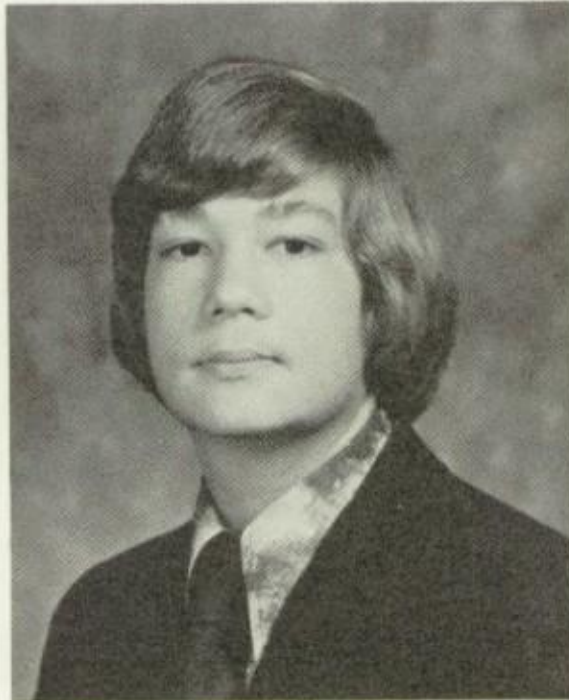

The ultimate end of growth and change should be to become a person who you like and who you feel is really "yourself". In the words of another — Be yourself and you will free yourself. Communicate, say what you feel, touch another person, make someone happy and you'll end up being happy yourself. Knowing what you feel inside is a big step in growing. If someone hurts you emotionally you can laugh the pain away for the moment but it takes coming to terms with your feeling to heal the wound.

To my friends and everyone I say live your lives to the fullest extent possible, remember the past and fantasize the future, but don't forget that the present is most important — Live, Love, Laugh.

They are Explorers all—reaching, growing, discovering, and experiencing.

JUNIORS

Throughout their third year at H.P.H.S., the junior class gained the knowledge which they will need to guide the school in the coming year. Just as the moon reaches *its* third quarter, the light becomes brighter and the form more brilliant.

AMERICAN FIELD SERVICE

This year Highland Park High School had the privilege of hosting an American Field Service Student. Vladimir Proaño from Ecuador visited with us from September until June.

Vladimir was very impressed with the wide range of subjects offered to the students of Highland Park, and took full advantage of the situation.

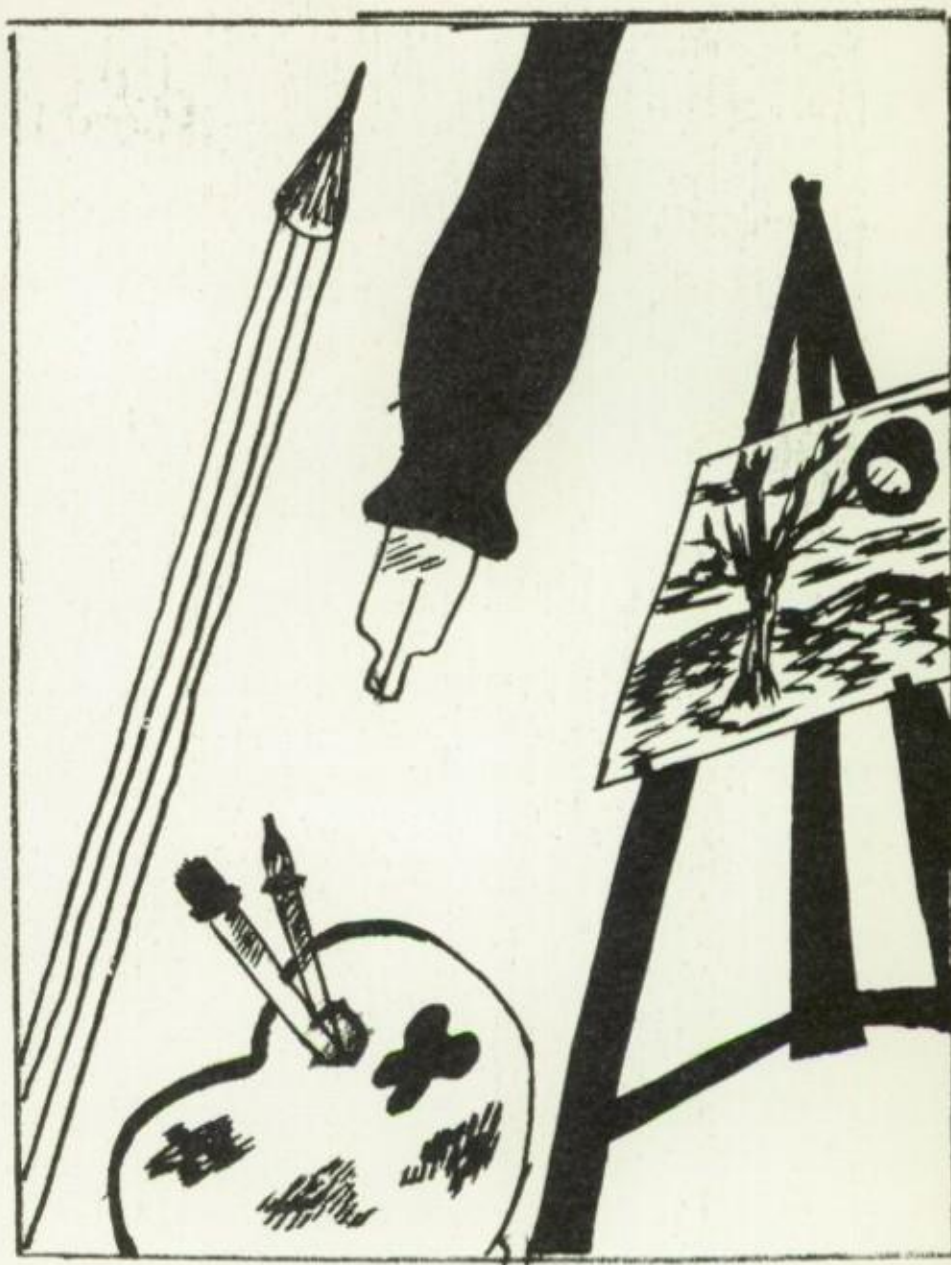

However, even with his heavy academic schedule, Vladimir found time to help with school plays and to make many friends at H.P.H.S.

We hope that Vladimir enjoyed his stay with us as much as we enjoyed having him. Good luck, Vladimir, and much success in the future!
